Re: K024033
Trade/Device Name: XTJF - 160AF Duodenovideoscope
Regulation Number: 21 CFR 876.1500
Regulation Name: Endoscope and accessories
Regulatory Class: II
Product Code: FDT
Dated (Date on orig SE ltr): December 5, 2002
Received (Date on orig SE ltr): December 6, 2002

Dear Mr. Sherratt,

This letter corrects our substantially equivalent letter of December 20, 2002.

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration. Please note: CDRH does not evaluate information related to contract liability warranties. We remind you, however, that device labeling must be truthful and not misleading.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to additional controls. Existing major regulations affecting your device can be

found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); medical device reporting (reporting of medical device-related adverse events) (21 CFR 803); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638 2041 or (301) 796-7100 or at its Internet address <http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm>. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). For questions regarding the reporting of adverse events under the MDR regulation (21 CFR Part 803), please go to <http://www.fda.gov/MedicalDevices/Safety/ReportaProblem/default.htm> for the CDRH's Office of Surveillance and Biometrics/Division of Postmarket Surveillance.

You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 796-7100 or at its Internet address <http://www.fda.gov/MedicalDevices/ResourcesforYou/Industry/default.htm>.

Sincerely yours,

Benjamin R. Fisher -S

510(k) Number(if known): No assigned yet

Device Name: XTJF-160AF DUODENOVideoscope

Indications for Use:

The XTJF-160AF has been designed to be used with an Olympus EVIS video system center, light source, Documentation Equipment, Video Monitor, Endo-Therapy accessories (such as a Forceps, Electrosurgical Accessories, etc.), Electrosurgical Unit, and other Ancillary Equipment for endoscopy and endoscopic surgery within the duodenum.

Do not use these instruments for any purpose other than their intended uses.

SMDA 510(k) SUMMARY

This summary of 510(k) safety and effectiveness information is being submitted in accordance with the requirements of SMDA 1990 and 21CFR Section 807.92.

A. Submitter's Name, Address, Phone and Fax Number

1. **Applicant:** Olympus Opt-Electronics Co., Ltd.
(New Company Name: AIZU Olympus Co., Ltd.)
500 Aza Muranishi Ooaza Niidera, Monden-machi
Aizuwakamatsu-shi Fukushima, Japan, 965-8520
Registration No.: 9610595
2. **Initial Importer** Olympus America Inc.
Two Corporate Center Drive
Melville, NY 11747-3157
Registration No.: 2429304
3. **Contact Person** Junko Obata
Olympus Optical Co., Ltd.
2951 Ishikawa-cho
Hachioji-shi, Tokyo 192-8507, Japan
TEL 81-426-42-2891
FAX 81-426-42-2291

B. Device Name, Common Name

1. **Trade/Proprietary Name and Common Name**
Trade Name: XTJF-160AF DUODENOVideoscope
Common Name: DUODENOVideoscope

2. Class, Classification Number and Classification Name

CFR Number	Classification Name	Class	Product Code
876.1500	Endoscopes and accessories	II	78-KOG

3. **Identification of Legally Marketed Devices Which we Claim Substantial Equivalence**
The following listed devices are seen to be as predicate devices in consideration of its characteristic and the following table shows regulatory history.

Model	#510(k)	Manufacturer	Class	Product Code
TJF-140R Duodenovideoscope	#K980465	Olympus Optical Co.,	II	78-KOG
JF-V10 Videoimage Duodenoscope	#K853585	Olympus Optical Co.,	II	78-KOG
EVIS EXERA Colonovideoendoscopes	#K001241	Olympus Optical Co.,	II	78-KOG

C. Summary Description of the Device

1. Summary

This premarket notification is proposed to establish the safety and effectiveness of the variable stiffness scope that is intended for endoscopy and endoscopic surgery, including electrocautery application, within the duodenum. The intended use of the XTJF-160AF is identical to that of previously cleared device, the TJF-140R and JF-V10. The mechanical structure of variable stiffness is identical to that of another predicate device, the EVIS EXERA

Colonovideoendoscopes. While the variable stiffness scope is brand new device in the duodenum, endoscopy and endoscopic surgery, including electrocautery, within the duodenum is popular and the mechanical structure of variable stiffness has been confirmed to be safe by the EVIS EXERA Colonovideoendoscopes. Any new insertion method or techniques in consequence of the added mechanical structure of variable stiffness are not considered. Therefore, this modification does not affect the safety and effectiveness of the proposed device.

2. Design

XTJF-160AF has been designed, manufactured and tested in compliance with voluntary safety standards. It meets the requirement of IEC60601-1, IEC60601-1-2 and IEC60601-2-18.

3. Materials

There are no new patient contacting materials. All of patient contacting materials is cleared by previous 510(k). And all materials have been confirmed with ISO 10993-1.

4. Intended Use of the device

The XTJF-160AF has been designed to be used with an OLYMPUS EVIS Video System Center, Light Source, Documentation Equipment, Video Monitor, Endo Therapy Accessories (such as a Forceps, Electrosurgical Accessories, etc.), Electrosurgical Unit, and other Ancillary Equipment for endoscopy and endoscopic surgery within the duodenum.

5. Summary including Conclusions drawn from Non-clinical Tests

When compared to the predicate device, XTJF-160AF does not incorporate any significant changes in the intended use, method of operation, material, or design that could affect the safety or effectiveness.
